Cobra Enterprises of Utah, Inc
Proudly 100% Made in the U.S.A.

**READ THESE INSTRUCTIONS
BEFORE USING THIS GUN**

Proudly 100% MADE IN THE USA.

GUN SAFETY WARNINGS

Failure to follow these gun safety warnings may result in injury or death to you or others.

All firearms should be handled with intense respect for their power and potential danger.

GUN SAFETY WARNINGS

Safety Is Your Responsibility

The number one concern of every firearm owner should be safety. Always follow all of the safety rules with any firearm. If you have any questions about any functional aspects of your firearm, please contact Cobra technical department at (801)908-8300, or tech@cobrapistols.net before proceeding with operating your firearm.

WARNING

DO NOT handle this firearm until you understand its correct operation. Firearms are all designed differently with different mechanical features. It is VERY important that you fully understand the safe handling and functions of this or any other firearm before handling. If you have any questions as to the safe handling of this firearm please call Cobra Enterprises of Utah at (801)908-8300 for assistance, or email tech@cobrapistols.net.

WARNING

ALWAYS use proper shooting glasses and hearing protection to prevent eye injuries or hearing damage. Always be sure that others in your surrounding area are also protected.

WARNING

DO NOT carry a loaded gun with a live round in the chamber while walking, or climbing or anywhere you might slip and fall, dropping the gun. A gun that is dropped, bumped or jarred with a live round in the chamber might accidentally discharge even with the safety on causing injury to you or someone else. Always check the gun yourself!

WARNING

NEVER point a gun at anything you do not intend to shoot. Always keep your gun pointed in a SAFE direction in case of accidental discharge. This is especially important when loading or unloading the gun. Always control the direction of the firearm.

WARNING

ALWAYS check the barrel to insure that it is free of obstructions before loading and firing the firearm. If you experience a light recoil or “off” sound CHECK THE BARREL FOR OBSTRUCTIONS. Keep barrel, chamber and all moving parts free of rust. Rust or other obstructions can cause excessive pressures, resulting in serious injury to your gun, yourself and others. A rusted barrel can be replaced by Cobra Enterprises of Utah, Inc. (801)908-8300 www.cobrapistols.net.

WARNING

NEVER shoot at a hard flat surface or at the surface of water to avoid a ricochet and possible serious injury to yourself or a bystander. DO NOT fire randomly into the sky.

WARNING

ALWAYS store guns unloaded in a clean, dry place and out of reach of children and separated from ammunition. Safe storage of your firearm is an important responsibility that every gun owner MUST take seriously to protect children and others from unauthorized use. Never allow a firearm to be used by anyone who does not understand it's safe operation and who has not read these firearm safety rules.

WARNING

- 3 NEVER alter any part of your gun. Use ONLY Cobra Enterprises of Utah replacement parts.

WARNING

ALWAYS have adequate ventilation at all times. Discharging firearms in poorly ventilated areas, cleaning firearms or handling ammunition may result in exposure to lead, a substance known to cause birth defects, reproduction harm and other serious injury. Wash hands thoroughly after exposure or prior to eating and/or drinking. Read the warning labels for all ammunition and cleaning products for proper handling and use.

WARNING

The safety and instruction manual should always accompany this firearm and be transferred with it upon change of ownership or user. A copy of the safety and instruction manual is available free from Cobra Enterprises of Utah (801)908-8300 email: info@cobrapistols.net

WARNING

USE ONLY Factory loaded ammunition for which the gun is chambered as indicated on the barrel to prevent excessive pressure and possible serious injury to yourself or others around you. NEVER use non-standard, reloaded, or hand loaded ammunition that has not been subjected to internal ballistic pressure testing.

WARNING

DO NOT rely on mechanical features only. It is your responsibility to ensure safe gun-handling habits and ensure the safe use of your firearms.

WARNING

It is a gun owners responsibility to be sure that they are in compliance with all applicable laws and ordinances regarding the use of their firearm.

WARNING

Never place your finger on or around the trigger area unless you intend to shoot. Keep area free of all objects.

WARNING

DO NOT use drugs or alcohol anytime while handling a firearm. DO NOT use any firearm while you are taking any medications that impair your physical or mental abilities.

WARNING

The safe handling and storage of any firearm is the GUN OWNERS responsibility. Guns are very dangerous and can cause serious injury or death if they are handled or used inappropriately. You, as a gun owner, are responsible for your firearm at all times.

Firearm safety and security are YOUR responsibility.

WARNING

NEVER disassemble your firearm beyond the procedures outlined in this manual. Serious injury or death can occur if your gun is not reassembled correctly.

WARNING

NEVER adjust or change (in any way) the internal components of your firearm. Adjustments or changes made to your firearm can affect the safety and reliability of your gun, as well as, your warranty.

WARNING

Never use any replacement parts except for parts purchased from Cobra Enterprises of Utah, Inc. Never permit any changes or alterations to your gun unless performed by a qualified gunsmith or by Cobra Enterprises of Utah's Repair Department.

WARNING

Failure to follow all of these basic safety rules may result in severe personal injury or DEATH to you or others. The safe use of a firearm is your personal responsibility. The most important safety device when it comes to the use of your firearm is YOU. Cobra Enterprises of Utah will not be responsible for any personal injury, death or property damage that results from disregarding of these safety instructions and warnings.

Cobra Enterprises of Utah will not be responsible for any personal injury, death or property damage that result from improper or careless handling of this firearm.

Cobra Enterprises of Utah will not be responsible for any personal injury, death or property damage that result from the criminal or negligent use of this firearm.

Cobra Enterprises of Utah will not be responsible for any personal injury, death or property damage that result from the use of non-standard, defective, improper or reloaded ammunition.

Cobra Enterprises of Utah will not be responsible for any personal injury, death or property damage that result from improper or negligent modifications or repairs to the firearm.

WARNING

Always use the lock provided by Cobra Enterprises to secure your firearm. Read and follow the instructions for your gun lock. NEVER assume that the use of the gun lock alone is sufficient to safely secure your firearm. ALWAYS be absolutely certain that your gun is stored safely and securely. Ammunition should always be stored separately from your firearm.

AMMUNITION

WARNING

DO NOT use ammunitions not specifically designed for use in your firearm. Using an incorrect type or caliber of ammunition may cause failure to fire or generate excessive pressure which can damage or even rupture your firearm, causing personal injury, death or property damage. Locate the caliber designation marked on the barrel of your firearm. This indicates the correct ammunition that must be used in this firearm. It is your responsibility to select the ammunition that meets industry standards and is the correct caliber and type for this firearm. The wrong type of ammunition may exceed the capabilities of this firearm and can rupture or damage your firearm. There are other ammunitions that may fit into your chamber. Firing ammunition not specified on your gun may exceed the capabilities of this firearm and can rupture or damage your firearm. Always inspect your ammunition. NEVER use damaged, dirty or corroded cartridges, these can lead to a burst cartridge which may cause damage to the firearm and personal injury or death.

Use only commercially manufactured ammunition with internal ballistic pressures which are in strict accordance with the specifications of the Sporting Arms & Ammunition Manufacturers Institute (SAAMI). If you have questions contact your ammunition supplier for verification.

Cobra Enterprises of Utah recommends FEDERAL AMERICAN EAGLE, CCI OR PMC Brand ammunitions on all Cobra Firearms.

This pistol is designed for standard factory loaded copper jacketed, “HARD BALL” type ammunition. Never oil or lubricate ammunition. Oils can penetrate ammunition, causing it to misfire or malfunction.

WARNING

(+P) “Plus-P” ammunition generates pressures in excess of standard ammunition. These pressures can exceed the margin of safety built into your firearm and could therefore be dangerous, DO NOT use (+P) loads in any Cobra Enterprises manufactured pistol.

We recommend changing to a different brand of ammunition if the spent cartridge cases have difficulty extracting from the barrel or chamber. Thoroughly cleaning the barrel or chamber with solvent is also recommended.

This pistol was test-fired before shipment. If you experience “Feed” problems. RE-READ THE LOADING INSTRUCTIONS and try another brand of ammunition before returning the pistol for repair.

INSPECTING YOUR PISTOL

WARNING

Before inspecting your pistol always ensure the firearm is unloaded. YOU MUST inspect your pistol to be sure it is not loaded. Do not place your finger on the trigger or around the trigger guard when checking your gun. ALWAYS keep the barrel pointed in a safe direction. Remove the magazine clip from your pistol. Pull the slide back and look into the barrel. Check to make sure that the barrel is free of live rounds and the barrel is free of any kind of obstructions. You must follow these rules EVERY time your gun is cleaned, handed to you or another person, stored or transported.

WARNING

DO NOT rely on mechanical features only. It is your responsibility to ensure safe gun-handling habits and the safe use of your firearms.

CA380

Caliber- .380 Auto
Magazine Capacity- 5 Rounds
Barrel Length- 2.8"
Overall Length- 5.4"
Overall Height- 4"
Empty Weight- 22 oz.

LOADING YOUR PISTOL

Before loading be absolutely sure that you have read and understand this manual

WARNING

CAUTION: We strongly advise that you familiarize yourself with all the mechanisms of this, or any gun, before putting any ammunition into it. Before loading or firing this pistol, make sure there are NO OBSTRUCTIONS in the barrel and wipe away all grease and foreign materials from its bore.

WARNING

DRY FIRING: Repeated "Dry Firing" of this pistol can cause the firing pin to break. Failure of this pistol to fire or eject is normally caused from a broken firing pin. The firing pin can be changed without the use of tools. Follow the DISASSEMBLY instructions, as outlined in this instruction manual.

CAUTION

For your safety, and that of others, we strongly recommend that you do not store, carry or handle this, or any other, firearm with a cartridge in the barrel until you are ready to shoot. A cartridge from the Magazine supply can be placed in the barrel, ready to shoot, in about the same length of time as required to move the Safety Slide from the “Safe” (S) position to the “Fire” (F) position.

DO NOT LOAD PISTOL UNTIL READY TO FIRE.

LOADING THE PISTOL: After loading your Magazine, insert it into the bottom of the pistol handle and push it into the pistol as far as possible. When fully inserted, the Magazine Catch will hook over the bottom of the Magazine and hold it in its proper position. Take the pistol in one hand with a firm grip, making sure your fingers are not touching the trigger. **Point Your Pistol in a Safe direction** and with your other hand firmly grasp the serrated portion of the Slide and pull as far rearward as it will go. **RELEASE THE SLIDE FROM ITS REARMOST POSITION ALLOWING IT TO GO FORWARD OF ITS OWN ACCORD. This procedure places the first cartridge into the chamber and the gun is ready for firing. Subsequent feeding and ejection operations are performed automatically until the pistol is empty. NOTE: Unless the pistol is already cocked, the Safety must be in the “Fire” (F) position before the pistol can be cocked or loaded from the Magazine supply.**

**CAUTION: UNLOAD YOUR PISTOL
IF YOU DO NOT INTEND TO SHOOT IMMEDIATELY**

WARNING

Immediately after firing remove your finger from the trigger area and trigger guard to prevent accidental discharges.

WARNING

If a cartridge fails to fire, wait 10 to 15 seconds while keeping the barrel pointed in a safe direction. Keep your finger out of and away from the trigger. Remove the magazine clip and slide back the slide and remove the failed cartridge and dispose of it in a manner approved for live round disposal.

WARNING

If your handgun has changed the way it feels or sounds STOP firing, make sure the gun is pointed in a safe direction and unload. Have the gun inspected and test fired by a qualified gunsmith before firing again

UNLOADING WITHOUT FIRING: Always point your pistol in a safe direction and move the Safety to Safe (“S”) position before attempting to unload your pistol. To unload unfired cartridges move the Magazine Catch rearward until the Magazine can be pulled from the pistol. **AFTER THE MAGAZINE IS REMOVED PLACE PISTOL IN FIRE (“F”) POSITION, PULL THE SLIDE TO THE REAR TO REMOVE THE CARTRIDGE FROM THE BARREL CHAMBER.** As a safety precaution, always check the barrel chamber visually by holding the Slide back and looking into the Slide, Chamber and Magazine cavities. **STORE PISTOL AND MAGAZINE SEPARATELY OUT OF THE REACH OF CHILDREN.**

DISASSEMBLY: THE PISTOL MUST BE IN UNLOADED, UNCOCKED AND IN FIRE (“F”) POSITION BEFORE TAKE DOWN CAN BE PERFORMED. To remove the Slide, use the end of your finger or a blunt object (such as lead pencil eraser) to push the retainer, located in the back end of the Slide, forward until it stops (about 1/4 inch). While holding the Retainer depressed, gently lift the rearward portion of the Slide away from the Frame until it stops. **Release the Retainer gently as it is spring-loaded.** Hold the rearward portion of the Slide up and push the slide forward, off of the end of the gun. This procedure removes the entire Slide Assembly and is sufficient for normal cleaning and oiling. Clean the Barrel within a reasonable period of time after shooting. After the powder residue has been removed, give the Barrel bore a light protective coat of oil. **Do not lubricate with anything but a lightweight machine oil, such as 3 in 1 oil or equivalent.**

ASSEMBLY: Make sure the Recoil Spring is over Barrel. Place the Slide Assembly over the Barrel and pull rearward until it can be dropped down onto the Frame. De-press the Retainer into the Slide far enough to allow it to drop into its slot. Release the Retainer after Slide is pushed down onto the Frame. You should not be able to lift the rear of the Slide away from the Frame if properly assembled. After the assembly is completed, but before loading, manually operate the pistol to see that everything functions properly.

NOTICE TO CUSTOMER

Reload ammunition, or any other soft leaded ammunition, may not function or feed properly in the Cobra Model Pistols. This pistol is designed for standard factory loaded, cooper jacketed, "HARD BALL" type ammunition. Never oil or lubricate ammunition. Oils can penetrate ammunition, causing it to misfire or malfunction.

RECOMMENDED AMMUNITION

FOR BEST SHOOTING AND FUNCTION, WE RECOMMEND FEDERAL/AMERICAN EAGLE,PMC or CCI AMMUNITION. (On all Cobra Products).

This pistol was test-fired before shipment. If you experience "FEED" problems, **RE-READ THE LOADING INSTRUCTIONS** and try another brand of ammunition before returning the pistol for repair.

CLEANING AND MAINTENANCE FOR STORAGE

If you are planning to store your gun for an extended period of time, the bore, internal workings and chambers should be oiled with a high quality lubricating oil or preservative intended for firearms. The external metal parts and barrel should be coated with an anti-rust oil. Do not store your gun in anything that will attract moisture. Before using your firearm again be sure to clean and inspect it.

WARNING

NEVER adjust or change in any way the internal components of your firearm. Adjustments or changes made to your firearm can affect the safety and reliability of your gun, and can void the warranty of your gun.

WARNING

Never use any replacement parts except for parts purchased from Cobra Enterprises of Utah, Inc. Never permit any changes or alterations to your gun unless performed by a qualified gunsmith or by Cobra Enterprises of Utah's repair department.

WARNING

ALWAYS have adequate ventilation at all times. Discharging firearms in poorly ventilated areas, cleaning firearms or handling ammunition may result in exposure to lead, a substance known to cause birth defects, reproduction harm and other serious injury. Wash hands thoroughly after exposure or prior to eating and/or drinking. Read the warning labels for all ammunition and cleaning products for proper handling and use.

WARNING

Be sure to keep your firearm clean. Be sure that you use safe products that will not harm the finish on your gun. Be sure to remove gun cleaning solutions from the outside surfaces of your gun.

RE-ASSEMBLY AFTER CLEANING AND MAINTENANCE

Make sure the Recoil Spring is over the barrel. Place the Slide Assembly over the Barrel and pull rearward until it can be dropped down onto the Frame. De-press the Retainer into the Slide far enough to allow it to drop into its slot. Release the Retainer after Slide is pushed down onto the Frame. You should not be able to lift the rear of the Slide away from the Frame if properly assembled. After the assembly is completed, but before loading, manually operate the pistol to see that everything functions properly.

WARRANTY

Cobra firearms come with a factory direct lifetime warranty. It covers all owners of the firearm. If at anytime you are having any difficulties with your gun you may send it in for repair or service. All warranty claims should state the model and serial number of the firearm being sent in for service. Please enclose your name, physical address, and phone number. Federal Firearms license holders can ship thru the U.S.P.S. with proper paperwork. Individuals must ship via Federal Express or UPS priority overnight. NEVER ship ammo with your gun when sending in for service or repair. We suggest that you insure when shipping. NEVER ship a loaded gun. Cobra Enterprises of Utah, Inc. will accept no responsibility for loss or damage in transit. Return shipping and insurance will be covered by Cobra Enterprises of Utah, Inc.

WARRANTY EXCLUSIONS

Cobra Enterprises of Utah, Inc. will not be responsible for issues resulting from corrosion, abuse, neglect, ordinary wear and tear to the finish, or unreasonable use, disassembly of the gun beyond the instructions in this manual, unauthorized adjustments or modifications made, or careless handling or criminal misuse. Cobra Enterprises of Utah, Inc. reserves the right to determine what is normal wear and tear.

Cobra Enterprises of Utah, Inc will not be held responsible for damages, injury, death or property damage do to the misuse or mishandling of this firearm.

NOTES

NOTES

WARNING

Children are attracted to and can operate firearms that can cause severe injuries or death. Prevent child access by always keeping guns locked away and unloaded when not in use. If you²⁸ keep a loaded firearm where a child obtains and improperly uses it, you may be fined or sent to prison.

WARNING

ADVERTENCIA

A los niños los atraen las armas de fuego y las pueden hacer funcionar. Ellos pueden causarse lesiones graves y la muerte. Evite que los niños tengan acceso a las armas de fuego guardándolas siempre con llave y descargadas cuando no las esté utilizando. Si usted tiene un arma de fuego cargada en un lugar en que un niño tiene acceso a ella y la usa indebidamente, le pueden dar una multa o enviarlo a la cárcel.

Youth Handgun Safety Act Notice

- (1) The misuse of handguns is a leading contributor to juvenile violence and fatalities.
- (2) Safely storing and securing firearms away from children will help prevent the unlawful possession of handguns by juveniles, stop accidents, and save lives.
- (3) Federal Law prohibits, except in certain limited circumstances, anyone under 18 years of age from knowingly possessing a handgun, or any person from selling, delivering, or otherwise transferring a handgun to a person under 18.
- (4) A knowing violation of the prohibition against selling, delivering, or otherwise transferring a handgun to a person under the age of 18 is, under certain circumstances, punishable by up to 10 years in prison.

Federal Law

The Gun Control Act of 1968, 18 U.S.C. Chapter 44, provides in pertinent part as follows:

18 U.S.C. 922(x)

(x) (1) It shall be unlawful for a person to sell, deliver, or otherwise transfer to a person who the transferor knows or has a reasonable cause to believe is a juvenile –

- (A) a handgun; or
- (B) ammunition that is suitable for use only in a handgun.

- (2) It shall be unlawful for any person who is a juvenile to knowingly possess--
- (A) a handgun; or
 - (B) ammunition that is suitable for use only in a handgun.
- (3) This subsection does not apply to –
- (A) a temporary transfer of a handgun or ammunition to a juvenile or to the possession or use of a handgun or ammunition by a juvenile if the handgun and ammunition are possessed and used by the juvenile-
 - (i) in the course of employment, in the course of ranching or farming related activities at the residence of the juvenile (or on property used for ranching or farming at which the juvenile, with permission of the property owner or lessee, is performing activities related to the operation of the farm or ranch), target practice, hunting, or a course of instruction in the safe and lawful use of a handgun;
 - (ii) with the prior written consent of the juvenile's parent or guardian who is not prohibited by Federal, State, or local law from possessing a fire arm, except--
 - (l) during transportation by the juvenile of an unloaded handgun in a locked container directly from the place of transfer to a place at which an activity described in clause (i) is to take place and transportation by the juvenile of that handgun, unloaded and in a locked container, directly from the place at which such an activity took place to the transferor; or

(II) with respect to ranching or farming activities as described in clause (i), a juvenile may possess and use a handgun or ammunition with the prior written approval of the juvenile's parent or legal guardian and at the direction of an adult who is not prohibited by Federal, State, or local law from possessing a firearm;

(iii) The juvenile has the prior written consent in the juvenile's possession at all times when a handgun is in the possession of the juvenile; and

(iv) In accordance with State and local law;

(B) a juvenile who is a member of the Armed Forces of the United States or the National Guard who possesses or is armed with a handgun in the line of duty;

(C) a transfer by inheritance of title (but not possession) of a handgun or ammunition to a juvenile; or

(D) the possession of a handgun or ammunition by a juvenile taken in defense of the juvenile or other persons against an intruder into the residence of the juvenile or a residence in which the juvenile is an invited guest.

(4) A handgun or ammunition, the possession of which is transferred to a juvenile in circumstances in which the transferor is not in violation of this subsection shall not be subject to permanent confiscation by the Government if its possession by the juvenile subsequently becomes unlawful because of the conduct of the juvenile, but shall be returned to the lawful owner when such handgun or ammunition is no longer required by the Government for the purposes of investigation or prosecution.

(5) For purposes of this subsection, the term “juvenile” means a person who is less than 18 years of age.

(6) (A) In a prosecution of a violation of this subsection, the court shall require the presence of a juvenile defendant’s parent or legal guardian at all proceedings.

(B) The court may use the contempt power to enforce subparagraph (A).

(C) The court may excuse attendance of a parent or legal guardian of a juvenile defendant at a proceeding in a prosecution of a violation of this subsection for good cause shown.

18 U.S.C 924(a) (6)

(6) (A) (i) A juvenile who violates section 922(x) shall be fined under this title, imprisoned not more than 1 year, or both, except that a juvenile described in clause (ii) shall be sentenced to probation on appropriate conditions and shall not be incarcerated unless the juvenile fails to comply with a condition of probation.

(ii) A juvenile is described in this clause if ----

(I) the offense of which the juvenile is charged is possession of a handgun or ammunition in violation of section 922 (x) (2); and

(II) The Juvenile has not been convicted in any court of an offense (including an offense under section 922(x) or a similar State law, but not including any other offense consisting of conduct that if engaged in by an adult would not constitute an offense) or adjudicated as

juvenile delinquent for conduct that if engaged in by an adult would constitute an offense.

(B) A person other than a juvenile who knowingly violates section 922(x)-

(i) shall be fined under this title, imprisoned not more than 1 year, or both; and
(ii) if the person sold, delivered, or otherwise transferred a handgun or ammunition to a juvenile knowing or having reasonable cause to know that the juvenile intended to carry or otherwise possess or discharge or otherwise use the handgun or ammunition in the commission of a crime of violence, shall be fined under this title, imprisoned not more than 10 years, or both.
